Protected business
Mail Protect

Liquid Intelligent Technologiess offers an Email Security Management Solution to protect your business against:

- Email-transmitted security threats such as SPAM, viruses and other malicious content
  - Mail Protect includes anti-SPAM, anti-virus and policy compliance message filtering; mail trace and quarantine features and reporting capabilities for managing message security.
  - Mail Protect offers two distinct, fully-managed solutions, which are hosted upstream by at a secure data centre.

Benefits:

- No capital outlay
- Low cost of ownership
- 24/7/365 monitoring support by security experts
- Upgrades and maintenance to the system are taken care of
- When companies subscribe to the service all incoming and outgoing are routed accordingly, preventing questionable and malicious content before it reaches the client's network.
- A seven-day mail replay is also provided allowing companies to trace and restore messages within that window period.
- A single point to manage your email security management system
- Superior functionality for the configuration of message rule sets, across multiple domains to enforce corporate email policies
- Capabilities for message interrogation, analysis and reporting
- Utilises best-of-breed technologies
- Vendor independent - any company can subscribe and enjoy the benefits
- Multiple layers of anti-virus protection
- Companies have full control of their email through easy to use web management portal
- A simplified platform that allows for consistent, transparent, and flexible system management.
- Configuration, management and reports are done by the customer via the management portal
- Robust and scalable architecture that can support email networks of any size

Features:

- Email-transmitted security threats such as SPAM, viruses and other malicious content
- The circulation of inappropriate material
- Email abuse by employees (Premium version only)
- Bandwidth wastage
- Network congestion
- Contravention of your corporate email usage policy by employees (Premium version only)
- Legal liability arising from breaches of confidentiality (Premium version only)

Support
